Shantel,

I have just finished chatting with some of the developers and it doesn't look like expanding the filters in the Issue Filters is on the roadmap for future development projects. GMI isn't the only customer to ask about this and I am going to suggest to you ,and to them, that you put in an Enhancement Request for this needed functionality. I think it is valid and would be used by ALL our customers. Please put in any and all Enhancement Requests you feel are valid....I guarantee others will be wanting the same functionality!

Thank you,
Angela

Hi Shantel,

Angela will take a look at this.

Regards,

Jim Griffin

Subject: [EXTERNAL] RE: GMI Check In

Thanks Jim,

We also had a follow up question that we are waiting on an answer to regarding the advance filters in the Historical Information Widget... the question is can we customize what the advanced filter options are in the various tabs... we are most interested in customizing the Issue History filter which currently the option is "Scheduled flag" which means nothing to us and we would like to be able to filter by either Issue Type or Mvmt Typ if possible.

I believe Angela was going to look into this for us?

Thanks,

Shantel

Advanced Filters
